# GECAS MATERIALS

Backed by a vast inventory stocked in strategic global locations, our experienced professionals prioritize your individual request with expedited service available around the clock and around the world.

## SPARES DISTRIBUTION

GECAS Materials delivers the highest quality spare parts for all commercial aircraft and engine manufacturers. Furnishing comprehensive solutions for your supply chain, our deep domain expertise will provide impactful solutions. From inventory optimization to guaranteed pricing and delivery, our products and services will ensure a strong supply chain for your fleet. Whether ad-hoc or a large provisioning, GECAS Materials is a partner you can count on.

## ENGINE COMPONENTS

Whether you're looking to upgrade your fleet, maximize the residual value of assets, or provide inventory flexibility with shop visit provisioning and forecasting, GECAS Materials matches your engine requirements with a broad inventory of the highest quality engines and replacement parts across a variety of platforms.

## DISMANTLEMENT

For more than 20 years, our dismantlement site has provided expert services for GECAS as well as a host of other aircraft owners. An ISO and AFRA certified facility, we assign a dedicated project manager for each aircraft. All parts are removed, identified, received, packaged and shipped from the same location, minimizing any risk of loss, damage, or cross-contamination. Our highly-efficient work card system ensures we accurately meet our customers' requirements.

## ACQUISITIONS & CONSIGNMENTS

We actively purchase whole aircraft or inventories for a wide variety of platforms. With a proven record of success, GECAS Materials' tailored consignment plans reduce your operating costs while increasing efficiency with parts leasing, initial provisioning, inventory planning, and end-of-life fleet solutions.

## EXPERIENCE

- 40+ Years of Industry-Leading Experience
- Staff with Long-Tenured and Diverse Aviation Backgrounds
- Global Team Spanning All Regions and Time Zones

## EXPERTISE

- Full Integration of GE Network and Synergies
- Take-out & Placement Opportunities
